## PROFESSIONAL SUMMARY

Highly skilled Computer Science professional and Software Engineer with a strong background in full-stack development, technical instruction, and project management. Proficient in Python, Flask, and AWS cloud infrastructure. Experienced in leading technical teams to deliver scalable digital solutions and mentoring over 100+ students in software engineering fundamentals. Dedicated to bridging the gap between education and industry through innovative technology.

## TECHNICAL SKILLS

**Languages:** Python, JavaScript (React), HTML5, CSS3, MySQL

**Cloud/DevOps:** AWS (EC2, S3), Git, Netlify, Vercel

**Frameworks:** Flask, Firebase, Supabase, Canva

**Management:** SDLC, Agile, QA Standards, Trello

## PROFESSIONAL EXPERIENCE

### Lead Software Engineer

Jan 2025 – Present

*ZyraTech | Koforidua, Ghana*

- Direct technical architecture and development for full-stack web applications, ensuring high performance and scalability.
- Led an intensive training program for learners in Python programming and Networking.
- Manage project roadmaps from initial concept through production, maintaining strict quality assurance and security protocols.

### Teaching Assistant

Nov 2023 – Present

*Koforidua Technical University | Koforidua, Ghana*

- Instruct and mentor 100+ students in Python, Web Development, and Database Management through tutorials and practical lab sessions.
- Engineered a custom internal dashboard using Flask to automate student project tracking and academic reporting.

- Provide mentorship on debugging, software design patterns, and industry-standard development practices.

**Project Manager**

**Jan 2023 – Dec 2024**

*Web-Based Consult | Ghana*

- Orchestrated cross-functional teams to deliver diverse web and software projects on time and within scope.
- Standardized internal communication and task management processes using Trello and Agile workflows.
- Transformed complex client requirements into detailed technical specifications for development teams.

**CORE PROJECTS**

---

**CampusHub Ghana | Lead Developer**

**Ongoing**

Developing a comprehensive e-commerce platform tailored for university ecosystems. Implemented secure payment integrations, user authentication, and optimized product discovery using React and a Python backend. Project reached 90% production readiness in May 2026.

**PubFlow | Backend Developer**

Designed a centralized publication management system using Python/Flask and MySQL, focusing on efficient data handling and real-time status reporting.

**EDUCATION & CERTIFICATIONS**

---

**Bachelor of Technology in Computer Science**

**2023 – 2025**

*Koforidua Technical University*

**AWS re/Start Program (Cloud Computing)**

**Apr 2026 – Present**

*AmaliTech / AWS Track*

**AI Career Essentials Certificate**

**Aug 2024**

*ALX AI Program*

**Higher National Diploma in Computer Science**

**2020 – 2023**

*Koforidua Technical University*
